LUDOWICI INTERLOCKING SHINGLE TILES

Ludowici Roofing Tiles and Ludowici Tile Slabs are made from fine shales.

Over fifty years experience has enabled Ludowici to develop tiles of quality and beauty, in a wide variety of patterns, soft rich colors and non-reflecting textures. Authentic designs meet all architectural requirements.

Glazes full and dull are produced in many colors. Personal tastes can be met.

Ludowici Interlocking Tiles are easily laid up units, side and top locked, nailed direct to roof base. They are sturdily designed, rugged in appearance yet light in weight and reasonable in cost.

Ludowici Roofing Tiles Made From Hard Burned Shale

Ludowici tiles of varied shapes and surfaces reproduce with great fidelity the rugged charm of French and English countryside roofs, of old Spanish and Italian villas, and tile roofs of the Northern countries.

Authentic units of design are provided not only for European and Classical reproductions, but also to faithfully reproduce our own Colonial roofs, which were covered with hand split wood shingles.
